Personal

Paul was born and raised in Florida where he comes from a family of active volleyball players. As a student-athlete growing up, he played almost every sport, but volleyball has always been his favorite. After moving to Atlanta in 2007, he has been playing adult volleyball, both indoor and outdoor. Whether it's competitive tournaments, pickup, or league play, he's constantly playing and working to improve his competitive game. Paul wants to help every player grow on and off the court through practice and words of experience. "Perfection is not attainable, but if we chase perfection we can catch excellence." -Vince Lombardi
